

## Facilities Improvement Phase 1: Removing Barriers to Theater

### REACHING OUR GOAL

*Gifts needed to make this project possible*

This moment apart has provided the perfect timing to complete these necessary repairs and upgrades to our building. Faucets, counters, and door knobs can be designed to support users with all levels of ability, and by making this investment, we are telling our audience they are important and that all are welcome at Gloucester Stage.

This first phase of the strategic facilities plan is an investment of \$193,000. **To achieve this goal, we need supporters at every level to help us remove barriers to theater.** Gifts will be recognized on a prominent donor plaque, as testament to families, businesses, and individuals who are committed to this effort with us.
